13TH LEXTALK WORLD CONFERENCE AND EXHIBITION 2026

Welcome from the Guest of Honor

THURSDAY, 11TH JUNE 2026 • RADISSON BLU ATRIA, BANGALORE

Dear Professional Colleagues, Distinguished Sponsors, Speakers, Awardees, and Delegates

It is my distinct privilege and professional honour to extend a warm and cordial welcome to all of you ahead of the landmark 13th LexTalk World Conference & Exhibition, scheduled to convene on Thursday, 11th June 2026 at the prestigious Radisson Blu Atria, Bangalore. Serving as the Guest of Honor for this premier gathering, I am profoundly enthused to greet our confirmed participants as well as those fellow legal professionals who are currently contemplating joining this elite dialogue.

This highly anticipated Bangalore edition is being organized under the stellar leadership of Mr. Abhishek Gourav, Co-Founder and Director of MantraNex Vista Pvt Ltd. As the pioneering driving force behind all LexTalk World events across the APAC and Middle East regions, Mr. Gourav and his capable team have meticulously curated this platform to catalyze legal excellence, bridge operational boundaries, and deliver an unparalleled professional development experience.

Centering around the highly contemporary theme, "**AI & Law: The Asian Frontier**," this full-day conference arrives at a critical juncture for our fraternity. There could not be a more ideal location than Bangalore—universally celebrated as India's technology capital—to host this timely dialogue. The city serves as an expansive hub hosting global technology corporate giants, pioneering LegalTech startups, and an unmatched concentration of corporate legal teams with extensive multinational exposure. It is the ultimate ecosystem to deliberate on how artificial intelligence, data governance, and digital regulation are radically rewriting global legal frameworks and operational paradigms.

CORE CONFERENCE PILLARS

1. AI in Legal Practice

Examining the profound impacts of generative AI and automation tools on accelerating legal research, refining contract reviews, and advancing modern legal defense methodologies.

2. Regulation & Compliance

Navigating emerging corporate digital governance boundaries, including the concrete implementation journey under India's Digital Personal Data Protection (DPDP) Act 2023, ASEAN AI governance guidelines, and complex cross-border data flows.

3. Intellectual Property in the AI Era

Resolving intricate issues regarding ownership and authorship of AI-generated output, patent eligibility of AI inventions, and crucial structural reforms for the Indian Patents Act.

4. The Future of Law in Asia

Analyzing India's trajectory as a global legal hub, digital dispute resolutions, cyber resilience, and the strategic skills evolution required for the 'Lawyer of 2030.'

For our confirmed participants, your presence guarantees an enrichment of this critical discourse and provides a vital platform to exhibit legal innovation. For those colleagues who are still considering whether to attend, I strongly urge you to seize this invaluable opportunity. Immersing yourself in this summit will equip you with the practical insights and strategic foresight necessary to maintain an undeniable competitive edge in an AI-driven environment.

This forum offers an unparalleled chance to network one-on-one with over 300 expected senior legal leaders, learn from real-world live case studies on court deployments, and witness the celebration of exceptional legal achievements during the Legal Honor Global Awards ceremony.
